

My name is Candy, I'm 38 years old. I'm so happy to tell you I became pregnant just three months ago. I would like to give thanks to Dr. Hui Wei. For the helping she gave me in conceiving. Now I want to share my story with everyone.

My husband and I did not conceive when we wanted. I was nervous because of my age. We went to see the doctor and did some tests. The doctor said everything was ok and to keep trying. The second month we still could not conceive. We saw the doctor again. This time the doctor only told us to relax and teach some positions and timing to increase the chances for conception.

But I was still worried about my health and told a friend of mine my concerns. My friend suggested that I see a Chinese doctor. Then I had time to visit Dr. WeiHui and I told her my history. She touched my pulse and said "you are Yang Xu, and I can help you use Chinese acupuncture and moxibustion and some medicine. Like XiaoYaoWan and WuJiBaiFenWen." I said: "I wanted to try, because I'm an old lady, and I don't have much time." She told me one week to do the Chinese acupuncture and moxibustion, I said I don't have much time maybe one month onc , I just want to try. I just did it two times, and the second month I got a baby. But ten days later, the baby was gone . . . it was natural miscarriage. I was so sad. Dr. WeiHui told me "you need to relax three or more months and don't make a baby and do the Chinese acupuncture and moxibustion a week and once, it can help baby become strong. I said: "ok." because only one way.

Every week I went to see Dr. WeiHui and took some Chinese medicine before the three months ,Doctor WeiHui told me my pulse was getting better. I rememer the last time I went to see WeiHui was August 9th, then I came home and did a urine test. The egg already came out and it was good time to make a baby. On Sep 23th my menses didn't come, I thought I got baby, three days after, my husband bought the pregnancy test, the test was positive.

Anyway, we would like to thank Dr. WeiHui for helping us get a baby. If you ever want to have a baby and you have some troubles, I suggest you talk to Dr. WeiHui, she can help you, this way is the best way and can make your dreams come true.
